Projects

CodeByte Blog | *Next.js, TypeScript, PostgreSQL (Neon DB), Prisma ORM, Zod, Tailwind CSS*

- Developed a full-stack tech blogging platform enabling users to create, edit, and publish articles in Technology, Programming, and Web Development categories.
- Designed and deployed a scalable API using PrismaORM, achieving a 30% improvement in data retrieval speed.
- Implemented secure user authentication using Clerk and stored user data in PostgreSQL via Neon DB
- Built interactive features including article dashboard, like system, and comment functionality to enhance user engagement.
- Designed a fully responsive UI using Tailwind CSS and shadcn/ui for cross-device compatibility.

ReviewAI | *Express.js, React, Gemini API, MongoDB, Javascript*

- Developed an AI-powered resume analyzer that evaluates resumes against job descriptions and provides ATS-based match scores with detailed insights.
- Implemented skill-gap analysis and generated personalized technical and behavioral interview questions to help users prepare effectively.
- Built dynamic resume generation and optimization features, enabling users to create job-specific resumes with improved relevance and presentation.

VeuDemy LMS | *React, JavaScript, MongoDB, Clerk*

- Developed a full-stack Learning Management System using React, Express.js, and MongoDB with responsive UI and scalable architecture.
- Built dedicated Student and Educator dashboards with role-based authentication and personalized functionalities.
- Implemented RESTful APIs for course management, enrollments, authentication, and user data handling.
- Designed reusable frontend components and optimized backend database operations for smooth performance and maintainability.

Certifications

Skyscanner Front-End Engineering

Dec 2025 – Jan 2026

Frontend Development

Remote

- Completed a job simulation where I built a web application using React as a front-end engineer at Skyscanner.
- Developed a page for picking a travel date using Skyscanner's open-source React library
- Customised my application and ran automated tests to ensure it rendered properly.

Deloitte Australia Technology Job Simulation

Nov 2025 – Dec 2025

Programming

Remote

- Completed a job simulation involving development and coding
- Wrote a proposal for creating a dashboard

BCG Strategic UI/UX

June 2025 – Aug 2025

Strategic UX

Remote

- Completed a job simulation where I helped to research and design a new banking product for a hypothetical client
- Built a research plan, developed primary research tools, and reviewed data to understand the target customers' attitudes, needs and beliefs.
- Created a customer persona to inform new product ideas and presented these using a concept chart

Education

Dr. Ram Manohar Lohia Awadh University

Expected August 2026

Bachelor of Science (81 percent)

Gonda, Uttar Pradesh

Technical Skills

Languages: JavaScript, Python, TypeScript

Technologies: React.js, Express.js, Node.js, Next.js

Concepts: Compiler, Operating System, Virtual Memory, Cache Memory, Encryption, Decryption, Artificial Intelligence, Machine Learning, Neural Networks, API, Database Normalization, Cloud Computing, Frontend Design, UI/UX
